

Hands on

- ~45 minutes
- `cd <psyclone_home>/tutorial/practicals/LFRic/distributed_memory`
- **3 parts** `2_annexed_dofs`, `3_overlapping_comms`, `4_reductions`
- **No compilation, just code generation**
- **Follow the README .md in the directories**
 - A browser will display README .md files nicely
 - https://github.com/stfc/PSyclone/tree/master/tutorial/practicals/LFRic/distributed_memory
- **Any issues/questions on slack**
 - Use the psyclone channel
 - Please use threads for replies

Have fun!
